“The Center for ZIMD interaction, media & social diversity deals with role models and mental models that are the everyday lives, and sometimes lead to conflicts or just life difficult.

In particular, it covers the Of course, foreign technology and images of various social groups, the strengths and weaknesses, the resulting agreement is reached, or to support groups in a given area are disadvantaged, and thus in the company only may participate. Following the approach of diversity management is looking for the ZIMD in these areas to find solutions to the resources of individuals or social groups targeted use.”
